SG1B

[REDACTED] Using these coordinates, the source expressed difficulty discussing the desired target.

2. (S) The source attempted to work with the grid location provided noting only a few specific items. The source indicated that the location had trees aligned in a row, that there were some railroad ties on the ground (without rails), and that there was an empty storage tank in the vicinity. He also noted that there was an old BTR-50PK, armored personnel carrier near the location. Source could not provide any further information.
